Glacier Waters

Leah Gravells, Edmonton, Alberta, 2015

100% cotton, 200 batik fabrics in 3/4" strips, Hobbs Heirloom batting, Gutermann thread. "Quilt as you go" technique, machine pieced and quilted. 42" x 52.25"

Water connects us all to life. The 3/4" strips represent the streams of water found in sky, land, and waterways. The glacier dust creates unique turquoise coloured waterways (lakes and rivers). It is important that we preserve the quality of our water for future generations.
